

Cambodia Literacy Integrative Project (CLIP2) The 2nd Quarter (April – June 2023)

Project Overview 1.

There are 3 main objectives of this project:

- 1) To create/prepare/distribute teacher resources for preschool teachers.
- 2) To install technical equipment (AccessBoxes) in schools to store teacher resources for preschools; and
- 3) To train teachers on the use of the Access Boxes as well as how to upload and download resources.

There are two main beneficiary types:

- 1) The preschool teachers; and
- 2) The preschool students.

Background: This project will take place in the Pursat Province of Cambodia. It will provide Early Childhood Education (preschool) support to rural schools in the Pursat area. Cambodia is still catching up after the total dissemination of its education system during the Civil War (Khmer Rouge). Recently the government has legislated that Early Childhood Education (preschool) be compulsory. There are not enough resources for teachers and many are struggling with what to do with so many children in their classrooms.

Rermork for Children (in conjunction with TukTuk Charity) has been creating resources for preschools and has been successful at delivering resources via their digital library, which is available on the internet, and the "Access Box" (computer device that acts as a Wi-Fi, so teachers download resources without being connected to the internet) and training teachers how to access, upload and download resources.

2. Participants

• Provincial Office of Education (POE)

5 officers

- Director
- Department of early childhood education
- Department of primary education
- Department of education audit
- Department of plan

District Office of Education (DOE)

8 officers (the director and the director of dept. early childhood education of each district)

- Pursat city
- Kandieng district
- Bakan district
- Krakor district

Target Schools

No ·	District	School Name	No. of Target Teachers (Number of Females)		Number of Class	Number of Students (Number of girls)	Remarks
1		State school	2 (2)	2	3 years old 5 years old	30 (16) 25 (8)	Independent school*1
2	Pursat	Prey Ny school	1 (1)	1	3 years old 4 years old 5 years old	5 (3) 19 (6) 20 (10)	
3		Lolok So school	1 (1)	1	5 years old 6 years old	34 (23) 1 (0)	
4		Kandieng school	4 (3) * One is principal	3	3 years old 4 years old 5 years old	26 (14) 45 (21) 33 (17)	Independent school
5	Kandieng	Bong Chhuk school	1 (1)	1	4 years old 5 years old	6 (3) 48 (24)	
6		Kaev Chey school	1 (1)	1	4 years old 5 years old	16 (7) 17 (10)	

7		Snam Preah school	1 (1)	1	5 years old 6 years old	1 (1) 62 (25)	
8	Bakan	Phnow school	1 (1)	1	3 years old 4 years old 5 years old 6,7 years old	0 (0) 1 (0) 11 (6) 17 (8)	Community school*2
9		Tram Pair school	1 (1)	1	3 years old 4 years old 5 years old 6,7 years old	5 (2) 10 (5) 12 (10) 7 (0)	Community school
10	Krakor	Onlong Tnaot school	1 (1) *She is principal	1	3 years old 4 years old 5 years old	20 (10) 15 (8) 27 (14)	Independent school
	Total	10 schools	14 (13) teachers		13 classes	513 (251)	

^{*1} The school that was independent of the primary school.

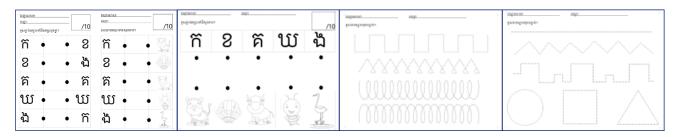

3. Project Implementation

Conduct 7 times follow-up visits						
The 6 th follow-up visit	10 days	Completed	18/05/2023	31/05/2023		

Detailed Activity Report

1.1.1) Training teachers how to access and use the resources

In May, the 6^{th} workshop was conducted and the participants explored the 8^{th} resource package for 'We Can – Just Differently' and learned to make four kinds of worksheets with their computers.

The teacher's computer skills have improved noticeably since the previous workshop. Some of them were practicing and they created worksheets which they used them in their lessons. However, mastering four types of worksheets at once was hard and confusing for them. We discovered that making at most three worksheets is sufficient in a workshop.

We will ask some of the more advanced teachers to help train other teachers in their free time. We also learned some additional learning points we need to add for future computer classes from the Rotary Club of Pursat (RCP) members who assisted the teachers on the day. We specifically discussed the importance of preparing and using the mouse, instructions on typing, moving a cursor, and saving files.

As stated in the <u>feedback</u>, some participants desired more time to demonstrate and play with our teaching resources. In the workshop, we were proud to play a game that came from a teacher who shared the idea with other participants. They appeared to be having fun with the game, which could be a trigger for them to consider playing it in their classroom as well. We thought the case was a fantastic example of teachers sharing their views.

^{*2} Managed by the commune and the schools were built by the Rotary Club of Pursat.

Our workshop's purpose is not only to provide information on our educational tools but also to exchange teaching ideas with everyone. There was no such voice that requested to have time for resource introduction before, but the enjoyable time inspired them to want to know more about resources. We would like to make a program that reflects their requests and encourage as much communication among participants as possible.

1.1.3) Assess the teachers to choose a model teacher with DoE

The purpose of this assessment is to clarify the status of classroom decoration in the target classrooms and then reflect on the result to create appropriate resources. We are aiming to improve the classroom decorations in all target schools in this two-year project.

The POE and DOE staff conducted the 2nd assessment of the schools within their jurisdiction, using the same assessment sheet as the 1st assessment. This sheet incorporates relevant indicators set by the Ministry of Education.

Overall, all target classrooms improved the score for classroom decoration by about 5.6 points on average (Table 1). We believe that the improvement is a direct result of our previous workshop on classroom preparation and the additional resources we provided them. We got the impression that all teachers' interest in classroom organization increased much more than at the beginning of the project. Some teachers began to display their hand-made teaching

tools positively and strive to keep organized and keep the classroom clean. Compared with the 1st assessment, this activity was meaningful in the term to be able to update their recognition against the classroom environment.

In some classes, teachers were placing actual objects, such as musical instruments, and objects for hygiene and exercise. It is difficult to supply these resources directly, but we can provide instruction on how to craft them through resource creation.

(Table 1)

 $*\Delta\cdots$ Independent school, $\bigcirc\cdots$ Preschool class in primary school, $\Box\dots$ Community school

* The total score is 30 points.

School	The score of the 1st assessment	The score of the 2 nd assessment	Difference
State school (3-year-old) △	20	23	+ 3
State school (5-year-old) △	20	25	+ 5
Prey Ny school O	20	23	+ 3
Lolok So school ○	16	23	+ 7
Kandieng school (3-year-old) △	17	19	+ 2
Kandieng school (4-year-old) △	13	21	+ 8
Kandieng school (5-year-old) △	17	19	+ 2
Bong Chhuk school O	16	23	+ 7
Kaev Chey school	13	19	+ 6
Snam Preah school	18	23	+ 5
Phnow school □	17	24	+ 7
Tram Pair school □	19	26	+ 7
Onlong Tnaot school △	20	29	+ 9

Unfortunately, we found there were differences in the evaluation criteria, especially detailed discretionary points, between each assessor. Next time we believe that we should run pre-evaluation training for POE and DOE staff before conducting the assessment to ensure a more consistent result. Also, we should provide the teachers with a complete set of classroom decorations all at the same time, instead of piece by piece over several workshops. This way, they will have a clear understanding of the criteria that they need to follow when displaying them.

2.1.1) Project field visits

We visited all 10 schools to <u>interview</u> the teachers about the intended and frequent use of computers, tablets and teaching resources in the Digital Library after the 6th workshop.

Since, in April and May, there were school vacations, it was difficult to understand how our resources were being utilized by the teachers. However, according to one teacher, her students have different preferences between animations and Kamishibai. They prefer watching animations from other channels than ours but enjoy our Kamishibai, speaking of storytelling. She considered that the animations are more engaging because they have more motions, which makes them more entertaining for children. However, Kamishibai's illustrations are bigger, which makes them more visually appealing to the students.

In addition, some teachers used worksheets they made themselves by innovating techniques they learned in the 6th workshop after starting the new semester. We also interviewed about the types of worksheets they would like to create for the upcoming workshop. We are now working to include their new ideas as much as possible in the next program.

Other Activities

i. Resource Package Creation

We will create 4 new resource packages during the project's two years, with 3 packages completed by this quarter (the 7th storybook 'Being Good' the 8th storybook 'We Can – Just Differently' and classroom decorations). We have been working on the 9th storybook to introduce in the last workshop in September.

Category	Resources will be published	Status	Due date	Remarks			
Book8. 'We can	- Just Differently' (New resource pa	ckage)					
Completed							
Book9. 'Which S	Book9. 'Which Sport Is It?' (New resource package)						
	Kamishibai (Front/Back)	In progress	By July				
	Printable version (Black and white)	In progress	By August				
Book	Printable version (Color)	In progress	By August				
	Digital version	In progress	By August				
	Animation	In progress	By July				
Song	1 song	In progress	By July				
Activity	9 activities	In progress	By July				
Printable game	1 board game	Completed		·			
Worksheet	9 worksheets	Completed		·			

ii. Information Dissemination Via Social Media

We run three open social media (Facebook, Telegram and YouTube) to share teaching resources for preschool teachers and parents.

Facebook

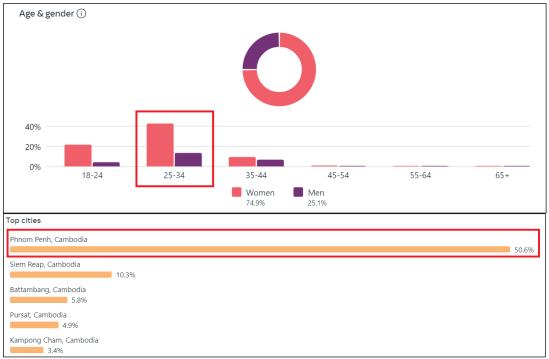

• Those posts include daily activity reports, animations, songs, activities, worksheets, and workshop videos. **R4C page**

Quarter	Posts	Reach*	New followers	Total Follows
Q4-2022	42	47,675	308	3,388

Q1-2023	34	104,667	643	4,031
Q2-2023	34	75,085	235	4,266

^{*}Reach...The number of people who saw any content from the Page or about our Page, including posts, stories, ads, social information from people who interact with our Page and more. Reach is different from impressions, which may include multiple views of the posts by the same people. This metric is estimated.

• Followers' information

Public group for preschool teachers

Quarter	R4C Posts	Community Posts	New Members	Total Members
Q4-2022	51	24	75	1,327
Q1-2023	27	48	90	1,417
Q2-2023	27	41	79	1,496

Telegram (messaging app)

• The members can see the R4C's teaching resources, such as storybooks, music, worksheet, etc., in it regularly. And other information related to education for preschool children is posted. As of June, 1,058 members have joined and the number has increased by 213 since March.

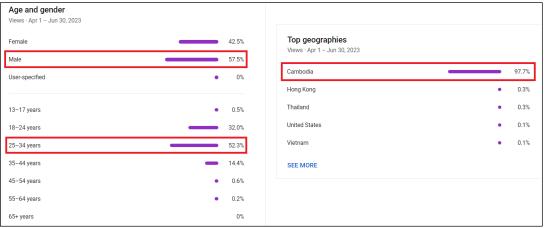

YouTube

- If You Are Happy And You Know It Song was the most viewed (25,655 views).
- 85% of views ratioed song videos

Quarter	Published Videos	New Subscribers	Total Subscribers	Total Views (all videos)
Q4-2022	47	617	2,394	196,935
Q1-2023	40	782	3,176	255,720
Q2-2023	43	547	3,723	221,577

^{*} Note that the YouTube data for gender may be skewed due to sharing phones and not having individual accounts.

• Followers' information

iii. Free Educational Material Distribution Website

We launched this <u>website</u> in August, 2022. The viewers can download those teaching tools with free and without royalty. The AccessBoxes provided to the target schools lead to access the website despite the unstable internet place. This website access record shows access of people who visit the page from their device, not from the AccessBox. In other words, people are included, not only non-target teachers and parents but also foreigners.

Quarter	Number of Visits	Number of Pageviews	Number of Downloads
Q4-2022	9,949	34,230	10,904
Q1-2023	15,430	49,828	16,962
Q2-2023	14,868	52,182	10,188

The top 10 resources that were downloaded were worksheets for Khmer letters. Most searched categories were also 'worksheet' in the activity type and 'Khmer' in the curriculum. As we can see from the data, it appears that our users are particularly interested in educational materials related to Khmer studies, with a preference for worksheets. Besides, the most viewed activity types were, from most to least, worksheets, classroom decorations, images/illustrations, storybooks, songs, activity games, and art and crafts.

84% of visitors came from the Facebook page, 12% from Telegram and 4% from the YouTube channel.

4. Measuring Success

Project	Collection method	Frequency	Beneficiaries
Number of beneficiaries of the project			
Number of benefiting school-age children	Public records	Every three month	513
Number of teachers who took workshops			
The 6 th workshop	Direct observation	Once conducted	20
Number of teachers who took regular interview	ews		
The 6 th follow-up visit	Focus groups/interviews	Once conducted	13
Information dissemination via social media			
Number of people who reached the posts	Focus groups/interviews	Every month	75,085
Number of people who viewed the resources on the 'Telegram' group	Focus groups/interviews	Every month	1,058
Number of people who viewed the YouTube videos	Focus groups/interviews	Every month	221,577
Number of people who visited the Digital Library website	Focus groups/interviews	Every month	14,868

5. Next Schedule (July – September 2023)

- Complete resource package of the 9th storybooks (By August)
 Conduct the 7th workshop (September)
 Conduct the 7th follow-up visit and end-line survey (September)
