

Cambodia Literacy Integrative Project (CLIP3)

The Annual Report

1. Project Overview

Cambodia is still in the process of rebuilding its education system, which failed during the civil war of the 1970s. In the field of early childhood education, the country faces the following challenges;

1. Lack of teaching resources in Khmer to use in classrooms.
2. Teachers lack the computer skills to create resources.
3. Teachers lack experience in some teaching techniques to perform efficient online research.
4. Available Khmer resources can be expensive, and schools, especially in rural areas, cannot afford to purchase them.
5. Many of the available teaching materials may not align with the curriculum.
6. Schools have very small or no budget for preschool teachers.

These issues occurring in the early childhood education stage, which is the foundation for a child's development, will affect the child's future growth process. Teachers are faced with these issues on a daily basis and wonder how to deal with them.

This project covers five regions in Pursat Province, located in the northwestern part of Cambodia. We at Rermork for Children (R4C) (in conjunction with TukTuk Charity), with 26 classes of 15 schools as partner schools, are working with provincial and district education department staff, preschool teachers, and members of the Rotary Club of Pursat (RCP) to empower teachers and parents, and increase educational opportunities for disadvantaged communities in early childhood education. The following activities will be undertaken over a two-year period to achieve the goal.

CLIP Project Goals:

Empower teachers and parents, and increase educational opportunities for disadvantaged communities in early childhood education.

Five steps to achieve the goal:

1. Create teaching resources (storybooks, songs, activity games, board games, worksheets, etc.) in Khmer language, using local Cambodian artists, and aligning the government curriculum and Cambodian culture include options that require no printing or materials to remove economic boundaries. And distribute them to the target education offices and teachers.
2. Enhance the "[Rermork Digital Library](#)", a free educational material website for preschools developed by R4C (TukTuk Charity), to make it easier to use and to enrich its contents.
3. Train teachers in seven workshops, not only on how to use the resources but also how to create their own resources. Laptops are supplied, and computer skills training will be conducted by the RCP.

4. Make a platform for sharing teaching materials by uploading resources created by the teachers themselves on the "Rermork Digital Library", so that teachers nationwide can access these materials.
5. Engage education bureau staff from the targeted provinces and districts to disseminate materials to schools beyond the project scope, as well as encourage educators to share materials with parents of the children, we aim to increase access to educational materials for a wider audience beyond the project's reach.

Through this project, we aim to ultimately have the targeted educators give back what they have learned to their respective communities, becoming leaders in further enhancing early childhood education nationwide. However, it is crucial not to forget that the primary beneficiaries of this project are the children. We hope that through the lessons of the educators who have undergone the project activities, children will find school an engaging place, leading to increased attendance and nurturing them into future leaders who actively engage in all endeavors.

6. Achievement in Social Media Service and “Rermork Digital Library”

We run three open social media (Facebook, Telegram and YouTube) to share teaching resources for preschool teachers and parents.

[R4C Facebook](#)

We are sharing updates on R4C's materials and activities three times a week. Visitors can download materials from here or browse the "Rermork Digital Library." Not only educators but also parents can access it. The most shared item this term was the worksheet "[រំលងគំនូស \(Trace Lines\)](#)" (350 shares, reaching 19,731 people*), and this worksheet was the most shared resource in 2024.

Duration	Posts	Reach*	New Followers	Total Followers
Q1	55	104,139	257	5,678
Q2	69	106,719	364	6,042
Q3	63	131,369	310	6,352

*Reach... The number of people who saw any content from the Page or about our Page, including posts, stories, ads, social information from people who interact with our Page and more. Reach is different from impressions, which may include multiple views of the posts by the same people. This metric is estimated.

The breakdown of followers;

[Public Facebook Group](#) for Preschool Teachers

This is a Facebook group for educators. It serves as a platform where not only posts from R4C are shared, but also where teachers themselves can disseminate teaching material ideas and educational information. The most shared post this season was [worksheets](#) posted by a follower (65 shares, reaching 3,887 people). The most shared post was the [illustrations](#) posted by a follower (76 shares, reaching 4,267 people).
